C.No: 2153 B. From the D.P.I, R.C.No: 1458 G/29

dated 2-9-30

Municipal High School, Hospet-Subsidy towards recurring cost.

Prior to 1920 there was only a middle school under the management of the Municipal Council, Hospet, and the Council was in receipt of a fixed subsidy of Rs 570 towards the salary of the headmaster. In that year Form IV was opened in the school and in the next two years forms V and VI. In connection with the raising of the status of the school the Govt undertook to meet three-fourths of the net cost of the high school dept. In 1925-26 when the fixed subsidy system revisable once in three years was introduced a subsidy of Rs 1650 was sanctioned for the school in lieu of the fixed subsidy for the middle school and the variable net cost subsidy for the high school. Subsequently additions were made to the fixed subsidy to cover a portion of the salary of the Commercial instructor and the charges on account of temporary allowance to teachers. The subsidy paid to the school now stands at Rs 2100.

2. Under G.O.No:1157 Edn d/ 12-6-30 the school is entitled to get an increase of 5 per cent over the subsidy hitherto paid. The Director recommends that additions equal to one half of the following items may also be made to the subsidy

(i)	Cost of revision of the salaries of teachers in high school dept	701
(ii)	cost of employing a mathematics asst.	396
(iii)	cost of raising the pay of the commercial instructor	128
(iv)	cost of revision of the pay of the gymnastic instructor and the employment of a separate drawing master	555
		1780

Half the costof items (i) to (iv) Rs. 890

3. Items (i),(iii) and (iv)-Revision of pay of teachers.

Under G.O.No: 1157 Edn d/ 12-6-30 the 5 per cent increase is intended to cover the cost of such revision of pay of teachers and no separate addition to the subsidy is admissible on this account. Item (iv) includes also the cost of employment of a separate drawing master. The school when it was a middle school, had only a combined drawing and gymnastic instructor. When it was raised to the status of a high school two separate posts of gymnastic instructor and drawing master were created in lieu of the combined post. Under the old net cost system three-fourths of the net addl expenditure on this account would have been met from Provincial funds. But as the triennial fixed subsidy system has been introduced the Council was informed in 1929 that the additional expenditure should be met by it until the general question of Govt aid to secondary edn was decided.

4. Item (ii)-Employment of a mathematics asst.

Ordinarily high school sections of schools have three L.T teachers besides the Headmaster When the Hospet school was raised to the high school stage, a staff of only two L.T assistants was allowed besides the headmaster and it was decided that the post of headmaster of the old middle school might be converted into that of an assistant for the high school The pay of this headmaster was Rs 65-2-75..

As the Council was not able to recruit a mathematics teacher on this pay it has ~~allowed~~ lowered Rs 100 for this assistant as in the case of the other L.T assistants in the school In 1928 the Council applied for a subsidy towards the cost of employment of the mathematics assistant. The D.P.I pointed out that if a subsidy should be paid for the mathematics assistant a reduction should be made in the subsidy of the middle school/ department of the school as it included the pay of this assistant who was the headmaster of the old middle school. He proposed to take the difference in the pay of the headmaster of the old middle school and that of the mathematics assistant into account in connection with the triennial revision of subsidies. He now recommends that one-half of this difference may be added to the subsidy otherwise payable to the school. As it is essential to have a qualified mathematics asst. for the high school the Director's suggestion may be accepted. The amount payable is Rs 198.

G.O.M.S. No. 3193 (S) 3/8/28

5. The total additional subsidy payable is ₤ 229 plus Rs 198 or Rs 427 This may be added to the 5 per cent increase of subsidy. The file may be sent to Finance for acceptance.

A ~~How does this~~ I do not see how this can be done under the G.O. This is not a case of a new teacher & the ML were told that the case would be considered at the next triennial revision. The 5% increase is subject to such cases
